### **Scope and Content of Collection**

The Luis Kutner papers describe his activities as a lawyer, as chairman of the Commission for International Due Process of Law, and as chairman of the World Habeas Corpus Commission. They consist of writings, correspondence, legal briefs, and printed matter relating to international civil rights cases, world federation, and attempts to secure international recognition of habeas corpus and due process of law.

The materials reflect Kutner's advocacy for the right to a fair trial based on due process of law, his crusade against unlawful arrest and ill treatment of political prisoners, his propagation of the concepts of euthanasia and the living will to uphold the right to die with dignity, and his commitment to saving the environment and protecting marine life.
