### 2014.054 Berkeley Folk Dancers records

Established in 1941, the Berkeley Folk Dancers continues to exist, although the earliest records in this collection are from 1974, with the exception of a few earlier event programs. The society issues a newsletter which Berkeley Historical Society has in its Periodical File beginning with vol. 19, 1959; newsletters received with this collection have been integrated with that file.

The President's book contain a variety of materials, including financial statements, some minutes, correspondence, and various other heading such as publicity, classes, etc. The organization of these materials varies since they were kept by successive presidents.

This collection was donated to Berkeley Historical Society in August 2014 by Emily Stoper.
